

CHILDREN LEFT BEHIND

**IMAGINE WHAT THE WORLD WILL LOOK AND SOUND LIKE WHEN CHILDREN IN NEED ARE
CONNECTED TO THE PEOPLE AND ORGANIZATIONS
READY TO HELP THEM – MORE EFFECTIVELY THAN EVER BEFORE.**

EDUCATIONAL OUTREACH

Children Left Behind has partnered with local educators, colleges, and universities in Southwest Virginia to serve through our sister children's organizations and through the schools' established educational institutions in India.

We are seeing how the promise and hope for a better future through education is becoming a reality as we work with at-risk children in the United States and developing world nations. We believe in the value of education to "open doors" for a new way of life for children and youth all around the globe.

Educational Outreach and Mission Trips to India

During our Educational Outreach, we visit schools in India and volunteer our skills and expertise in areas where foreign visitors are allowed. We believe it is very timely and important for us to serve the schools in South India.

Send a Child to School

You too, can be a part of the transformation that education provides in a child's life by giving them a fresh start and a confident hope for a better future!

Join us in being a part of the solution. For a monthly donation of \$35 you can send a child to school for a year. The profile of a child who will go to school because of you will be sent to you. Call for more information or visit our website to donate online.

CHILDREN LEFT BEHIND

**ENSURING CHILDREN
IN NEED GROW UP
HEALTHY, EDUCATED
AND SAFE**

MEDICAL OUTREACH

Children in developing countries suffer from many diseases that may be prevented with proper medical care and preventive medicine.

Children Left Behind's mission is to provide medical care and education to children and their families in developing countries.

Medical Resources

Children Left Behind is working hard to increase resources through donations, supplies, and medical education. These resources assist in addressing the needs of children suffering from lack of medical resources.

Medical Mission Trips to India

Children Left Behind's goal is to put together teams of medical professionals, students, and volunteers to make medical mission trips to India. These mission trips provide medical assistance and education to children and families in need. There are many needs in this area; medical mission trips will provide a rewarding and fulfilling experience for those involved.

Contact us if you are interested in volunteering to help be a part of our Medical Outreach program.
